Project	Township of McKellar Centre Road Pulverizing Contract No. 24-12
Tenderer	<div><div>NAME</div><div>ADDRESS</div></div>

GENERAL

The Township of McKellar is reconstructing 3.1 kilometres of Centre Road and requires the existing road surface to be pulverized. The road section is located approximately 3.0 km from McKellar starting at the FR203 south 3.1 km to Lees Road.

The Township is requesting quotations for the pulverizing of the existing road surface. The Township will be responsible for grading and compacting the pulverized road surface.

The township would like the pulverizing to be completed during the first week of September, 2024.

IN SUBMITTING THIS TENDER THE BIDDER AGREES

1. We agree the successful bidder shall furnish an executed agreement, a Certificate of Insurance as specified, and WSIB Clearance Certificate, satisfactory to the owners.
2. We agree that this tender price shall be open for acceptance for twenty (20) days after the tender closing date.
3. We agree that the Owner may not accept the lowest tender or any tender and further that the Owner will not defray any costs incurred in the preparation of this tender.
4. We agree that upon acceptance of this Tender by the owner, as notified by facsimile or mail, that we immediately shall sign the contract agreement, or a purchase order. We shall submit a construction schedule, and submit the required insurance and related documents as specified.
5. The Tenderer also understands and accepts that the prices set forth in this tender include full compensation to furnish all machinery, tools, apparatus and other means of construction, furnish all materials, and to complete the work in strict accordance with the work descriptions, and specification referred to in the Request for Pricing which includes the Description of Work, Project Location Drawing SK-1, and Provincial Standard Specifications OPSS.MUNI 100.

The timing of the pulverizing is the first week of September, 2024. If the Contractor requires an alternate date insert the date below for consideration.

General Specifications

Unless otherwise noted the work will be governed by the OPSS.MUNI 100, November 2019.

Supplementary Specifications

General Description of Work (pulverizing)

The Contractor shall pulverize the road surface from approximate FR 203 to Lees Road. The existing surface is double surface treatment overlaid with a layer of Micro Surfacing. The surface is approximately 7.6 metres wide. The pulverizing includes 4 surface treated intersections, Lake Side Road, Bromley Road, Camp Road, and Lee's Road

The pulverizing and mixing of materials shall extend approximately 100mm - 150mm deep. The pulverized product shall produce a mixed material with 100% passing through a 50mm sieve and 95% passing a 37.5 mm sieve. OPSS MUNI 330 Clause 330.07.03. If the pulverized material is coarser than specified the Contractor shall repeat the pulverizing at the Contractor's expense.

The Contractor pulverizing the road shall be responsible for Traffic Control for their operations during pulverizing. The Township shall compact and grade the pulverized material.

The bidders shall visit the site to satisfy themselves of the scope of the work and contact Bob Hughes (RHH Engineering) regarding the details of the extent of the area to be pulverized.

Drawing SK-1 shows the approximate location of the area to be pulverized.

Payment

Payment for pulverizing shall be by the horizontal field measurement in square metres. OPSS 330.09.01.01.
