- (i) In the case of a transfer of interment rights, cancel such transfer and substitute and grant in lieu thereof other interment rights such as lot or plot of equal or greater value and similar location as far as is reasonably possible and as may be selected by the Cemetery Operator, in its sole and absolute discretion, or refund a portion or all the money paid on account of the purchases of said interment rights, as shall be determined by the Cemetery Operator.
 - (ii) In the event of any such error that may involve the interment or disinterment or removal of the remains of any person or persons in any lot or plot, the Cemetery Operator, upon written notification of the interment rights holder and the Medical Officer of Health, as necessary, may disinter and re-inter the remains in such other lot, plot or grave of equal or greater value and similar location as may be substituted and granted in lieu thereof.

SECTION C. INTERMENT RIGHTS

Purchase of Interment Rights:

- 2.1 The purchase of interment rights is not a purchase of real estate or real property. Interment right holders acquire only the right to direct the burial of human remains, and the installation of monuments, markers, and inscriptions, subject to the conditions set out in the cemetery By-law. No burial or installation of any monument, marker, inscription, or memorialization is permitted until the interment rights have been paid in full and the interment rights certificate has been issued.
- 2.2 In accordance with the FBCSA and regulations, the purchaser of interment rights must enter a contract with the Cemetery Operator, providing such information as may be required by the Cemetery Operator for the completion of the contract and the public register. The purchaser will receive:
 1. A copy of the contract
 2. A copy of the cemetery By-law
 3. A copy of the price list
 4. The BAO's publication *A Guide to Death Care in Ontario*, also known as the Consumer Information Guide."
- 2.3 The interment rights certificate will be forwarded to the person(s) listed as the interment rights holder(s) in the contract, after full payment is received.

Opening and Closing of Graves or Lots:

- 2.4 The opening and closing of graves for full burials may only be performed by the funeral home or individuals authorized to work on behalf of the funeral home. For cremation interments, the interment rights holder or their designated person/contractor is responsible for opening and closing the grave.
- 2.5 The Cemetery Operator retains the right of passage over every grave so that the cemetery operations may be performed effectively.
- 2.6 The Cemetery Operator reserves the right to temporarily relocate a monument or marker if required to open and close a lot. The Cemetery Operator may also temporarily place the removed soil on an adjacent lot while an interment or disinterment is being carried out. The Cemetery Operator will make reasonable efforts to restore all lots after the interment or disinterment has been completed.
- 2.7 Remains must be delivered to the cemetery for interment in a closed casket, rigid container or in a shroud. If remains are delivered in a shroud, they must be accompanied by a rigid carrying tray to ensure dignified transportation to the grave.
- 2.8 To ensure safe conditions are always maintained, individuals wishing to witness the closing of a lot shall remain a minimum of 9 m (30 feet) from the open lot, and they must stand outside the delineated worksite.
- 2.9 Funeral flowers placed on an in-ground lot will remain a minimum of five (5) days following the interment and then will be removed at any time thereafter and disposed of by Township staff.
- 2.10 The Cemetery Operator assumes no responsibility for damages should a burial lot be opened in the wrong location because of incorrect or insufficient information, and any expense in connection with an error of this kind shall be paid by the parties ordering the interment.
- 2.11 The Cemetery Operator limits its responsibility to the certificate of interment rights holder for lots that may unknowingly contain burials or cremations to that of transferring a replacement lot to the certificate of interment rights holder within the same cemetery.

Notice Required:

- 2.12 The Cemetery Operator requires at least forty-eight (48) business hours' notice for each interment of human remains. The only two exceptions are 1) due to a medical situation that requires a burial within twenty-four (24) hours of death; and 2) a religious faith that requires interment immediately after death. The required permits shall be provided before the interment, regardless of any exception.

- 2.13 Interments will not be scheduled for Saturday, Sunday or holidays unless special arrangements have been made and approved by the Cemetery Operator. Additional fees may be charged on these days. See Burial Hours in Section B of this By-law. The cemetery will make every effort to provide interments as booked, but in the interest of public safety, should an extreme weather event occur that may make the cemetery unsafe, the Cemetery Operator may be forced to prevent an interment from occurring. Should this occur, the Cemetery Operator will make every effort to rebook the interment as soon as possible.

Authorization, Information and Documents Required for a Burial:

- 2.14 The following items are required before an interment can take place:

Proof of Registration of Death: A burial permit issued by the Registrar General (or equivalent document for deaths that occurred outside the province of Ontario) showing that the death has been registered must be provided to the Cemetery Operator before an interment takes place.

Burial Permit: Before an in-ground casket interment, a burial permit and the interment rights certificate shall be deposited at the Township Office.

OR

Cremation Certificate: Before the interment of cremated remains, the interment rights holder or the personal representative shall deposit at the Township Office a cremation certificate and an interment rights certificate.

Contract: For each burial of human remains, the purchaser or rights holder(s) must enter into a contract as described above in **Purchase of Interment Rights**.

Written Permission of Interment Rights Holder(s): Interment rights holder(s) may be required to provide identification and written direction and authorization prior to a burial or entombment taking place. Should the rights holder(s) be the deceased, authorization must be provided in writing by the person authorized to act on behalf of the interment rights holder in keeping with the *Succession Law Reform Act* (i.e., Estate Trustee or authorized next of kin).

Payment: Interment rights and all services must be paid for in full to the Cemetery Operator before a burial may take place.

Authorization of Social Services Agency: If applicable, written instructions from a social services administrator must be submitted to the cemetery operator before a burial financially assisted by a Social Services Agency may take place.

Scattering of Cremated Remains:

- 2.15 Scattering of cremated remains is **prohibited**.

Burial Allowances for a Single Lot:

Image: Depiction of burial allowances for a single lot.

- 2.16 Each regular-sized lot may be used for one casket burial, plus up to two (2) additional cremation burials placed above the casket.
- 2.17 Where cremated remains are interred before casket interment(s), all attempts by the Funeral Home or Contractor will be made to locate and temporarily remove urns to facilitate casket burials. For better retrievability of the cremated remains, they should be in an urn or container that is non-biodegradable and is not breakable (urn vaults are not mandatory but are recommended). There is no guarantee that cremated remains interred in a biodegradable urn or without an urn vault can be retrieved. The Cemetery Operator is not responsible if there is an issue or failure with the urn or container, and there is a

leakage of the cremated remains, which may not be recoverable. Cremated remains disinterred in advance of a full body burial will be temporarily stored in a secure location by the Funeral Home, which will be documented by the Cemetery Operator. There may be additional costs for the cremated remains disinterment as part of the casket opening & closing costs (please see the cemetery price list). Please also see further provisions under the Disinterment section.

- 2.18 A total of four (4) cremations can be accommodated per lot, in the absence of a full casket burial.

SECTION D. CANCELLATION OF INTERMENT RIGHTS WITHIN THE 30-DAY COOLING-OFF PERIOD

- 3.1 A purchaser has the right to cancel a contract for interment rights within thirty (30) days of signing the interment rights contract, by providing written notice of the cancellation to the Cemetery Operator. The Cemetery Operator will refund all monies paid by the purchaser within thirty (30) days of the date of the cancellation request. However, if any portion of the interment rights purchased in this contract has been exercised, the contract is deemed to have been fulfilled, and the rights holder no longer has the right to cancel the contract and receive a refund for the rights purchased.

SECTION E. RESALE, CANCELLATION OR TRANSFER OF INTERMENT RIGHTS AFTER THE 30-DAY COOLING-OFF PERIOD

RESALE OF INTERMENT RIGHTS IS PROHIBITED

- 4.1 The Cemetery Operator prohibits the resale of interment rights to a third party. If the interment rights holder wishes to cancel their interment rights contract after 30 days, the Cemetery Operator will refund/repurchase the interment rights at the price listed on the current price list, less any care and maintenance contribution amount previously paid.

The Cemetery Operator reserves the right to refuse to cancel a contract for interment rights if a portion of the interment rights has been exercised (for example, one lot in a plot has been used).

Requirements for cancellation of interment rights:

- 4.2 To cancel a contract for interment rights, the interment rights holder must provide the Cemetery Operator with written notice of cancellation and the interment rights certificate, which must be endorsed by the rights holder(s), transferring all rights, title and interest back to the Cemetery Operator. The aforementioned paperwork must be completed before the Cemetery Operator reimburse the rights holder(s).

Transfer of Interment Rights

- 4.3 The transfer of interment rights may only be made after the interment rights have been paid for in full. With the permission of the Cemetery Operator and following this By-law, the rights holder may transfer the interment rights to another person for no consideration (no money). Transfers must be processed through the Cemetery Operator, and the following must be provided.
- The interment rights certificate endorsed with the following:
 - A statement signed by the rights holder selling the rights, acknowledging the transfer to the third party.

- o A signed confirmation by the Cemetery Operator that the person transferring the rights is shown as the rights holder in the cemetery's records. Should the interment rights holder be deceased, authorization must be provided in writing by the person authorized to act on behalf of the interment rights holder in keeping with the *Succession Law Reform Act*, i.e. personal representative, estate trustee (executor) or next of kin. A copy of the notarized will or other documentation may be required to ensure the person requesting the transfer is authorized to do so.
 - o The date on which the rights were transferred to the third-party (transferee).
 - o The name and address of the transferee.
 - A written statement regarding the lots' rights that are being transferred and confirmation that they have not been used.
 - Any other documents in the rights holder's possession relating to the rights.
 - A copy of the current cemetery By-law must be provided to the transferee.
- 4.4 Once all required documentation and information have been received by the Cemetery Operator from the rights holder(s), the Cemetery Operator will issue a new interment rights certificate to the transferee(s), and the transferee(s) shall be considered the current interment rights holder(s) of the interment rights. The resale or transfer of the interment shall be regarded as final, and the cemetery's Public Register will be updated.

Administration fee for transfer:

- 4.5 In the case of a transfer of interment rights, an administration fee applies for the Cemetery Operator to issue a new rights certificate to the transferee. The fee, which is set out on the cemetery price list, is also charged for the replacement of lost or damaged certificates.

SECTION F. CONSUMER PROTECTION

- 5.1 Lot sizes may vary according to specific lots within a particular cemetery. Survey plans shall be used to determine the dimensions of each lot.
- 5.2 Interment rights may be purchased from the Cemetery Operator at the price(s) set out in the current tariff, attached as Appendix 'C' to this By-law.

- 6.2 In some circumstances, the disinterment of human remains may be ordered by one or more public officials (e.g., Court Order, Coroner's Office, etc.). It will take place without the consent of the interment rights holder(s) and/or next of kin.
- 6.3 The Cemetery Operator is not responsible for damage to any casket, urn or container which may occur during a disinterment. Additionally, due to the length of time that a casket, urn, or container has been interred and the conditions to which it has been exposed, the Cemetery Operator cannot guarantee that it can retrieve the complete casket, urn or container interred in the cemetery. Should a new casket, urn or container be required at the time of disinterment, it shall be at the expense of the party authorizing the disinterment. Additionally, the Cemetery Operator has the right to request that a licensed funeral director and/or Township employee be present for the disinterment at the expense of the party authorizing the disinterment.
- 6.4 Disinterments will be scheduled at a day and time designated by the Cemetery Operator. The Cemetery Operator reserves the right to close the cemetery or the section where the disinterment is to take place. Only those persons required or permitted by the cemetery to attend a disinterment shall be allowed to enter the cemetery or the section involved during a disinterment.

- 6.5 If reinterment does not take place within the same lot and if existing memorialization (monument, marker, etc.) needs to be removed, it will be at the expense of the person authorizing the disinterment.
- 6.6 Once a disinterment has been completed, the lot space shall be considered available to the interment rights holder for a new interment, transfer or resale in accordance with this By-law. Suppose the grave from which a disinterment has occurred is transferred or resold. In that case, the new interment rights holder must be made aware of the previous disinterment and agree in writing to such knowledge as part of the transfer or resale agreement.

SECTION H. MEMORIALIZATION

- 7.1 No memorial shall be erected or permitted on a lot until all charges have been paid in full and/or written consent is obtained from the Cemetery Operator.
- 7.2 To prevent interference with future interments and optimize cemetery maintenance, the Cemetery Operator reserves the right to set out the maximum size of monuments, their number and their location on each lot or plot.
- 7.3 Only one (1) monument and one (1) marker shall be erected within the designated space on any lot. Where there is more than one burial in a grave, then there shall be no more than one (1) monument and two (2) or three (3) markers on that grave.
